(**) Restated figures.

Haya Real Estate, S.A.U.
and Subsidiaries
(Haya Group)

1. Situation of the entity

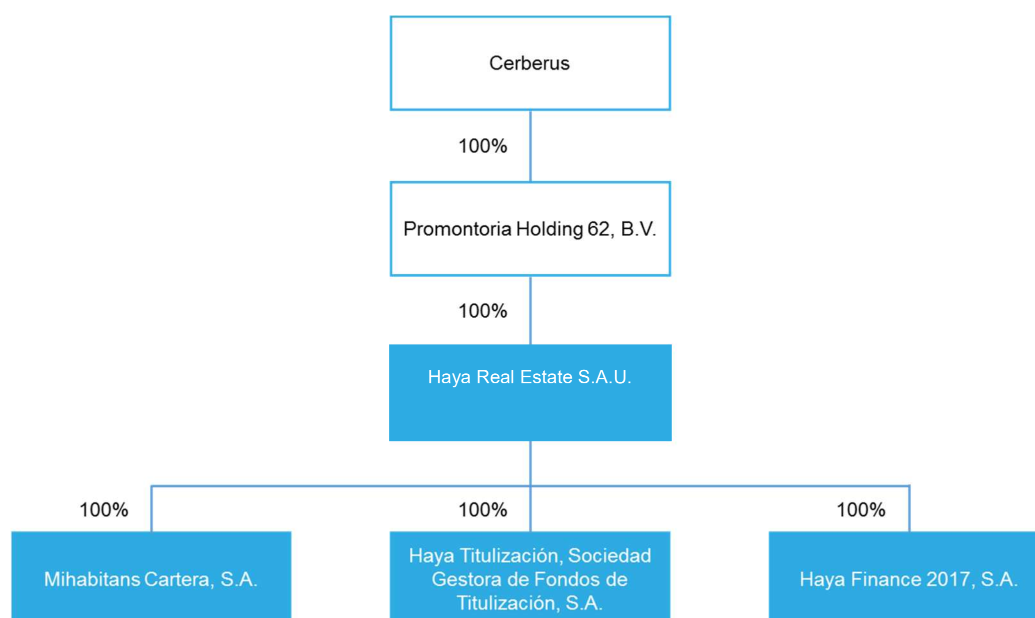
Haya Real Estate, S.A.U. (hereinafter, the Parent) was incorporated for an indefinite duration on 28 May 2013 as Cornalata Servicios y Gestión, S.L, and is duly registered in the Mercantile Registry of Madrid in Volume 1547, General, Book 31,153, Folio 10, Section 8, Sheet No. M-560,663, Entry 1 with VAT Registration No. (CIF) B-86744349.

The entity's name was changed on 1 August 2013 to Promontoria Plataforma, S.L.U., before being changed to its current name on 21 April 2014.

On 25 April 2018, the Sole Shareholder agreed to modify the Parent's bylaws so that it becomes a public limited company, changing its company name to Haya Real Estate, S.A. (Sole Shareholder Company). The transformation was effective on 7 May 2018.

Its registered office is at Calle Vía de los Poblados 3, Edificio 9, Madrid (Spain).

The corporate structure of Haya Real Estate, S.A.U. and subsidiaries ("Haya" or the "Group") at June 30, 2018 is shown below:



The Parent is a sole shareholder company wholly owned by Promontoria Holding 62, B.V. (the sole shareholder). Cerberus Capital Management L.P. ("Cerberus") advises funds that indirectly own 100% of the shares of the Parent, through the sole shareholder.

On 31 January 2018, the Parent set up the company Haya Real Estate Servicing, S.A.U. with a similar corporate purpose to the Parent. On 13 March 2018, the Parent has sold all the shares it holds of this new company to its Sole Shareholder, for an amount of EUR 60 thousand, which is equivalent to the share capital of the new company. Since its incorporation to the date of the aforementioned shares sale, the new company had not carried out any activity so that the impact of its incorporation in these interim condensed consolidated financial statements is null.

On 20 June 2018, the shareholders of the Companies involved in the merger approved the absorption of Haya Finance 2017 S.A.U. and Mihabitans Cartera S.A.U. by Haya Real Estate S.A.U. (acquiring company). At the date of preparation of these interim condensed consolidated financial statements, the merger deed had not been

executed yet, so the merger is not effective. As a result of the merger, these companies will be excluded from the consolidation perimeter and will be dissolved without liquidation, and the equity of such companies will be transferred in full to the acquiring company, through universal succession. This transaction will have no impact on the consolidated equity of the Haya Group.

All of the Group's business activity is carried out in Spain, and mainly involves the following comprehensive services:

- Debt management and recovery: The Group actively manages and monitors its clients' portfolios of outstanding loans. For performing loans, the Group monitors the debtor's financial situation to anticipate a future default. It manages payments from debtors and performs necessary administrative functions. For NPLs, the Group assists in the analysis and implementation of a number of recovery strategies, including pre-legal recovery processes such as discounted pay-offs ("DPOs"), standstill payoffs, short sales, loan sales and portfolio sales. In addition, it manages legal recovery processes, such as foreclosure and insolvency processes and deeds in lieu ("DILs")

- Real estate asset management: The real estate asset management activities are centred on REO management activities such as asset onboarding activities (including reception of the assets and registration in IT systems), payment of taxes and debt cancellation. Once the asset is onboarded, the Group assists in analysing any development work required, for example, construction or obtaining relevant urban planning permits, with the help of urban planning lawyers, architects and contractors. The Group also performs detailed appraisal analyses, and manages necessary repairs and incidents, where required.

- Real estate asset commercialization: The Group manages a number of commercialization activities on behalf of its clients, including the rental and sale of REOs, through a broad network of real estate brokers, its clients' bank branches, its internal salesforce and its own online platform. Its activities incorporate the management of rentals, implementation of marketing campaigns, contacting clients and arranging site visits, as well as the sale of asset portfolios. The Group also assists in the formalization of private contracts and public deeds and performs ongoing monitoring and reporting activities.

- Advisory and underwriting: The Group has a cross-functional advisory team that assists in managing the clients' portfolio through a variety of activities. The Group provides asset valuation services through a combination of automatic and manual valuation, performs extensive market research and offers extensive data analytics and statistical modelling.

- Value-added services: The Group's value-added services complement its core servicing business and consist of portfolio advisory services, securitization management and property management. The Group also leverages its direct contact with end customers to offer related products, such as mortgages, insurance, utilities and refurbishment services. It has a team that manages and assists in the development of land and projects under construction.

The Group's revenues derive mainly from four main servicing contracts (SLAs or Service Level Agreements) setting down the terms and conditions for the services. These four contracts have similar fee structures, but different fee percentages, which accounts for most of the Group's revenue:

- Volume-servicing fees: the percentage fee agreed with the clients for each asset transaction or recovery managed by the Group on their behalf, based on its nature (i.e., the recovery or sale of debt, the conversion of REDs to REOs or the commercialization of a REO).

- Asset management fees: the percentage fee agreed with the clients charged on the amount of assets under management (AuM).

These four contracts have been signed with the following financial entities:

- Bankia Group: The Group has been providing management services for the real estate and credit assets of the Bankia Group since October 2013, under the SLA signed on 3 September 2013 for a period of ten years. In addition to volume-servicing and management fees, the SLA also establishes a success fee that the Group earns if certain benchmarks are achieved for the assets managed during the year. On 27 April 2018, the Parent has entered into a novation of the purchase contract for the Bankia group's asset management business and of the Service Level Agreement contract (SLA), both signed on 3 September 2013 with Bankia group. Such novation modifies the terms of the aforementioned contracts, adding to the current REOs under management a new perimeter of REOs coming from the merger between Bankia and Banco Mare Nostrum (BMN), and settling that the servicing term is indefinite, with a period of exclusivity

of 10 years, starting on 1 May 2018. Likewise, such novation resolves the provision by the Parent of any service under the initial SLA dated 3 September 2013, in relation with Bankia's REDs, managed by the Parent under the initial SLA. The new novated SLA establishes certain service levels the Group has to achieve, which will be measured regularly once the calibration period for these services, which is currently underway, has been completed.

- Cajamar Group: The Group has been providing management services for the real estate and credit assets of the Cajamar Group since July 2014, under the SLA signed on 10 June 2014 for a period of ten years. The SLA establishes certain service levels the Group has to achieve, which are measured regularly.

- SAREB: Sociedad de Gestión de Activos Procedentes de la Reestructuración Bancaria, S.A. (hereinafter, "SAREB") held a tender in the first half of 2014 that was awarded to the Group's Parent, for the provision of administration and management services for a bundle of assets over five years. This agreement came into effect on 1 January 2015. The portfolio of assets initially awarded to the Group mainly consisted of REDs, some of which have now been converted into REOs. The SLA establishes certain service levels the Group has to achieve, which are measured regularly.

- Liberbank Group: The Group has been providing management services for the real estate and credit assets of the Liberbank Group since August 2017, under the SLA signed on 8 August 2017 for a period of seven years. The SLA establishes certain service levels the Group has to achieve, which will be measured regularly once the calibration period (currently underway) for these services, has been completed.

The Group has expanded its activity since 2013, through acquisitions of asset management businesses from other financial institutions and of companies specialising in value-added services that complement its core business. The Parent is also the sole administrator of a few portfolios of guaranteed real estate assets acquired by Cerberus and other institutional investors.

2. Business performance and results

2.1 Key Performance Indicators

a. Alternative Performance Measures (APMs)

The key indicators used by the Group and its sector to describe its activities and performance are: Assets under Management (by total and by client), Transaction Volumes (by total and by type of transaction), Average Volume Servicing Fees and Average Asset Management Fees, EBITDA and Adjusted EBITDA, EBITDA Margin and Adjusted EBITDA Margin, Net Debt, Leverage Ratio, Free Cashflow and Cash Conversion. The Group uses these measurements when planning its strategy, preparing budgets, reporting to the sole shareholder and reviewing the Group's performance.

The Group's management considers that these measures are commonly used among its peers in the industry. It considers measures based on EBITDA to be useful as they eliminate potential differences in operating income between the periods and companies being compared, due mainly to factors such as amortisation and depreciation, historic costs, the age of the assets, capital structures and tax regimes.

Details of the definitions, calculation and reconciliation of these APMs with the Group's interim condensed consolidated financial statements are shown below:

a.1 Assets under Management (by total and by client)

The Group defines Assets under Management (AuMs) as the total contracted assets under management on which asset management fees are earned and which are comprised of REDs (Real Estate Developer Loans) and REOs (Real Estate Owned Assets), generally at the gross book value reflected in the client's balance sheets or agreed upon reference price. The AuMs we manage can change for a specified period as a result of "inflows" (increases in AuMs resulting from new servicing contracts or additional AuMs from existing servicing contracts), "outflows" (decreases in AuMs resulting from the recovery or sale of REDs or the commercialization of REOs) and RED conversions into REOs. The total amount of Assets under Management in a period forms the basis of our commissioning and is confirmed periodically with our clients.

This Alternative Performance Measure is used because it is understood to be a key measure to analyse and track our performance as it shows the base on which we earn our asset management fees and illustrate the volume of assets that we currently manage for our clients.

	In € millions *(unaudited)*	
	June 30, 2018	December 31, 2017
Assets under Management (by client)		
Bankia	*5,532*	*5,580*
Cajamar	*5,925*	*6,494*
Sareb	*23,500*	*24,119*
Liberbank	*2,857*	*3,026*
Other clients	*981*	*940*
Assets under Management (total)	**38,795**	**40,159**

As of June 30, 2018, the AuMs decreased by €1.364 million due to the natural evolution of recoveries under existing contracts, in particular caused by the fact that the Sareb RED portfolio is closed, which means no new assets will be added to the portfolio during the contract term.

a.2 Transaction Volumes (by total and by type of transaction)

The Group defines Transaction Volumes as the volume transacted on AuMs on behalf of clients and on which volume fees are earned. Transaction Volumes comprise:

- Transaction Volumes derived from the recovery or sale of REDs, measured at the amount of cash recovered on the loans for our clients;
- Transaction Volumes derived from the achievement of certain milestones in connection with the conversion of REDs into REOs (REO conversion) through foreclosures or bankruptcy proceedings, measured at the established amounts for such milestones in the applicable servicing contract;
- Transaction volumes derived from the commercialization of REOs, measured at sale price for our clients.

The total amount of Transaction Volumes transacted in a period forms the basis of our commissioning and is confirmed periodically with our clients.

	Six months ended June 30, (in € millions) *(unaudited)*	
	2018	2017
Transaction Volumes (by type of transaction)		
RED	*876.7*	*643.5*
REO Conversion	*656.4*	*343.4*
REO	*840.8*	*512.5*
Transaction Volumes (total)	**2,373.9**	**1,499.4**

For the six months ended June 30, 2018 compared to the six months ended June 30, 2017, transaction volumes increased by €874.5 million (or 58%).

Increase in total volumes is mainly explained by REO and REO Conversion volumes, increasing by 64% (or €328.3 million) and 91% (or €313 million), respectively, when compared to 6M 2017. REO volumes in 2018 were impacted mainly by the contribution of the Liberbank contract, signed in August of 2017, by €278.7 million and a strong performance in Cajamar and Bankia REO sales. Additionally, REO Conversion volumes increased mainly by a stronger activity in Sareb resulting in a sharp increase in the number of claims filed during the period. RED volumes also increased by 36% (or €233.2 million) compared to 6M 2017 mainly due to strong performance in Cajamar helped by one large portfolio sale.

a.3 Average Volume Servicing Fees, and Average Asset Management Fees

We generate revenues primarily from two types of fees under our Core Servicing Contracts: (i) volume servicing fees, which are calculated as a percentage of the recoveries volume for each NPA (i.e., the cash recovery or sale of debt, the activities performed to convert REDs to REOs or the commercialization of a REO) that we achieve on behalf of our clients, and (ii) management fees, which are generally calculated as a function of AuMs in each contract in a given period. Such fees vary significantly from contract to contract and by type of asset recovery. Other revenues consist of success fees (linked to the achievement of performance objectives agreed with the clients) and revenues derived from other types of businesses (e.g., securitization, advisory services, rental management and land development advisory, among others).

The Group defines Average Volume Servicing Fees, as volume servicing fees as per the consolidated financial statements divided by Transaction Volumes for a specified period.

Likewise, the Group defines Average Asset Management Fees as asset management fees as per the consolidated financial statements divided by the average Assets under Management for a specified period (such average being calculated using the AuMs at the beginning and the end of the relevant period as confirmed periodically with our clients).

These averages are relevant for the Group as they give an overall average for the fees received in terms of the volume of client activity and total assets managed by the Group, irrespective of the terms and conditions of the contract with each client.

Because of their nature, including information reported by our clients, these APMs cannot be reconciled directly with the Group's interim condensed consolidated financial statements, but they provide a useful and relevant measure of the Group's performance and the overall trend in its revenues.

Average Volume Servicing Fees were calculated as follows for six months ended June 2018 and 2017:

	Six months ended June 30, (in € millions, other than ratios) *(unaudited)*	
	2018	2017(*)
Volume servicing fees	80.9	62.5
Volume of transactions in the period [1]	2,373.9	1,499.4
Average Volume Servicing Fees	**3.41%**	**4.17%**

[1] According to the definition of this APM provided before.

(*) Restated figures.

Average Asset Management Fees were calculated as follows for the last twelve months (LTM) ended June 30, 2018 and 2017:

	Last twelve months ended June 30, (in € millions) (*unaudited)*	
	2018	2017(*)
Asset management fees	81.2	77.9
Average Assets under Management in the period[(1)]	38,090.7	39,571.0
Average Asset Management Fees	**0.21%**	**0.20%**

[(1)] Calculated using the AuMs at the beginning and the end of the relevant period as confirmed periodically with our clients.
(*) Restated figures.

a.4 EBITDA and Adjusted EBITDA

The Group defines EBITDA as the sum of net profit, corporate income tax, net financial expense, impairment and results on the sale of fixed assets, and depreciation and amortization.

The Group defines Adjusted EBITDA as the sum of EBITDA and the non-recurring costs estimated to have been incurred in connection with the IPO exploratory activities.

The Group uses EBITDA and adjusted EBITDA as objective and comparable performance measures for assessing its payment and cash flow-generation capacity. The Group considers that it will continue using Adjusted EBITDA as long as there are specific isolated transactions that represent income or expense for the Group without an associated cash flow and therefore need to be adjusted to ensure the usefulness and comparability of this indicator.

The reconciliation of this APM with the interim condensed consolidated statement of profit or loss for the six-month period ended June 30, is as follows:

	Six months ended June 30, (in € millions) *(unaudited))*	
	2018	2017(*)
Profit (loss) for the period	2.0	9.5
Income tax (benefits)/ expenses	(1.0)	3.1
Finance income	(2.6)	-
Finance expenses	14.2	7.3
Depreciation and amortisation charge	50.2	36.2
EBITDA	**62.8**	**56.1**
Estimated non-recurring costs in connection with the IPO exploratory activities	2.1	-
Adjusted EBITDA	**64.9**	**56.1**

(*) Restated figures.

For the six months ended June 30, 2018, EBITDA was €62.8 million, 12% increase from EBITDA of €56.1 million for the six months ended June 30, 2017. This increase is explained by an increase in transaction volumes and thereby revenues, partially offset by an increase in transaction related direct costs (mostly REO channel costs and

REO Conversion litigation costs), higher costs associated to temporary external workforce and professional services in relation to specific projects carried out by the company to service its clients.

a.5 EBITDA Margin and Adjusted EBITDA Margin

The Group defines the EBITDA Margin as EBITDA divided by revenues as per the interim condensed consolidated financial statements for the six-month period ended 30 June. The Group defines the Adjusted EBITDA Margin as Adjusted EBITDA divided by revenues as per the interim condensed consolidated financial statements. These APMs reflect the marginal return for the Group on each euro received, without considering costs that do not represent cash outflows, interest or tax.

These APMs arise from direct calculation based on one APM previously reconciled with the Group's interim condensed consolidated financial statements for the six-month period ended June 30, 2018 and 2017 and a line item included on these. These APMs were calculated as follows for the six-month period ended June 30, 2018 and 2017:

	Six months ended June 30, (in € millions, other than ratios) *(unaudited)*	
	2018	2017(*)
EBITDA	62.8	56.1
Revenues	130.2	108.4
EBITDA Margin	**48.2%**	**51.8%**
Adjusted EBITDA	64.9	56.1
Revenues	130.2	108.4
Adjusted EBITDA Margin	**49.8%**	**51.8%**

(*)Restated figures.

a.6 Net Debt

The Group defines Net Debt as Debts with credit institutions, bonds and other securities, including accrued interests, less cash and cash equivalents, as shown in our consolidated statement of financial position. This measure offers an objective view of the Group's net financial debt.

The reconciliation of this APM with the interim condensed consolidated financial statements for the six-month period ended June 30, 2018 and year ended December 31, 2017 is as follows:

	In € millions	
	June 30, 2018 *(unaudited)*	December 31, 2017
Debts with credit institutions, bonds and other securities	490.8	485.1
Cash and cash equivalents	(27.8)	(42.0)
Net Debt	**463.0**	**443.1**

a.7 Leverage Ratio (Net Debt to EBITDA)

The Group defines the Leverage Ratio as Net Debt divided by Adjusted EBITDA of the last twelve months (LTM). This APM measures financial leverage and a company's ability to pay off its debt.

This APM was calculated as follows for the last twelve months (LTM) ended June 30, 2018 and for the year ended December 31, 2017:

	In € millions	
	June 30, 218 *(unaudited)*	December 31, 2017
Net Debt	463.0	443.1
Adjusted EBITDA LTM	155.2	146.4
Leverage Ratio	**3.0**	**3.0**

a.8 Free Cashflow

The Group defines Free Cashflow as Adjusted EBITDA minus Capital Expenditures (excluding investments in contract intangible assets) and Change in Working Capital. This measures the cash available after operational needs have been met and after investment in fixed and intangible assets, mostly investments in computer software.

Because of its nature, this APM cannot be directly reconciled with the Group's interim condensed consolidated financial statements but provides a useful and relevant measure of the Group's performance and cash generating capacity.

This APM was calculated as follows for period ended June 30, 2018 and 2017:

	Six months ended June 30, (in € millions) *(unaudited))*	
	2018	2017(*)
Adjusted EBITDA	64.9	56.1
Capital Expenditures (-)	(7.0)	(6.7)
Changes in working capital (+)	(17.0)	(15.7)
Free Cash Flow	**40.9**	**33.7**

(*)Restated figures.

a.9 Cash Conversion

The Group defines Cash Conversion as Free Cashflow divided by Adjusted EBITDA. The Group considers this indicator as relevant given that it shows in which proportion the Adjusted EBITDA is converted into cash in each period.

This APM arises from the direct calculation of two APMs previously reconciled with the Group's interim condensed consolidated financial statements for the six-month period ended June 30, 2018. This APM was calculated as follows for the six-month period ended June 30, 2018 and 2017:

	Six months ended June 30, (in € millions, other than ratios) *(unaudited)*	
	2018	2017(*)
Free Cash Flow	40.9	33.7
Adjusted EBITDA	64.9	56.1
Cash Conversion	**63%**	**60%**

(*)Restated figures.

3. Income Statement

Key Income Statement Items

Set forth below is a brief description of the composition of the key line items of our consolidated statement of profit or loss:

Revenues

Our revenues are derived mainly from the volume servicing fees and management fees, which are linked to the transaction volume activity, as well as other revenues.

Other operating expenses

Other operating expenses consist primarily of channel costs, litigation costs for REO conversions, operational expenses and other operating expenses. Channel costs are commissions paid to real estate brokers or bank branches participating in the sale of REOs. Operational expenses are agency and consulting fees and the remainder of our operating expenses are comprised mainly of IT, marketing, rent and travel expenses.

Personnel costs

Personnel costs represent salaries, severance fees and related personnel expenses.

Amortization

Amortization includes the amortization of tangible and intangible fixed assets on a straight-line basis over the useful life of the assets.

Net finance costs

Net finance costs arise primarily from our debt obligations and related interest expenses.

Corporate income tax

Corporate income tax benefit (expense) is calculated as the sum of the current tax payable resulting from the application of the effective tax rate to the taxable income for the year, less any allowable tax deductions and tax credits and the change in assets and liabilities due to deferred taxes.

3.1 Revenues

The following table presents the breakdown of total revenues for the six months ended June 30, 2017 and 2018:

	Six months ended June 30, (in € millions) *(unaudited)*	
	2018	2017(*)
Volume servicing fees	*80.9*	*62.5*
Management fees	*40.4*	*38.0*
Other	*8.9*	*7.9*
Total Revenues	**130.2**	**108.4**

(*)Restated figures.

For the six months ended June 30, 2018, revenues were €130.2 million, a 20% increase from revenues of €108.4 million for the six months ended June 30, 2017. This increase of €21.8 million was primarily driven by an increase in total transaction volumes during the period due to the good performance in REOs and REO Conversion. Management fees increased by 6% from the previous year due to the contribution from the Liberbank contract, signed in August 2017, offset by the decrease caused by the natural evolution of the contracts, mainly Sareb, as a result of the closed nature of such contract. Other revenues increased compared from the previous year mainly due to new Institutional Asset Management contracts (primarily new portfolio servicing contracts). In relation to volume servicing fees as a % of volume there was a decrease from 4.17% to 3.41% due to the weight increase of REO Conversion volumes and portfolio sales in the period compared to 2017, which have contractually lower % fees.

In terms of product, the volume servicing fees increase of €18.4 million is explained by €12.6 million increase in REOs, €3.8 million increase in RED and €2.0 million increase in REO Conversion performance.

3.2 Other operating expenses

Other operating expenses increased by €12.8 million, or 45%, during the six months ended June 30, 2018 compared to the six months ended June 30, 2017. The increase in expenses was driven by: (i) new costs associated to the Liberbank contract, signed in August 2017 (ii) non-recurring costs estimated to have been incurred in connection with the IPO exploratory activities by €2.1 million, (iii) higher costs associated to temporary external workforce and professional services in relation to specific projects carried out by the Company to service its clients, (iv) higher activity in new commercial campaigns increasing marketing costs, and (v) higher customer support operations as a result of specific collection campaigns and increased REO commercial activity.

3.3 Personnel costs

Personnel costs increased by €2.3 million, or 10%, during the six months ended June 30, 2018 compared to the six months ended June 30, 2017. The increase was primarily driven by the Liberbank contract acquisition in August 2017 and new servicing portfolio contracts obtained during 2018 which have required increase in FTEs.

3.4 Net finance costs

For the six months ended June 30, 2018, net finance costs were €11.6 million, a 59% increase from net finance costs of €7.3 million for the six months ended June 30, 2017. This increase is mainly the result of the Senior Secured Notes issuance in November 2017, for a total of €475 million, at a higher interest expense compared to the former Syndicated Facility, which was fully repaid in November for an amount of €236.1 million, partially offset with the finance income generated from the upstream loan to the Sole Shareholder.

3.5 Net profit/loss

Excluding the impact of the non- recurring costs estimated to have been incurred in connection with the IPO exploratory activities, total Adjusted EBITDA for the six months ended June 30, 2018 amounted to €64.9 million, a 16% increase from Adjusted EBITDA for the six months ended June 30, 2017. However, due to an increase in the amortization caused by the Liberbank contract and higher financial expenses driven by the Senior Secured Notes issuance in November 2017, net profit for the six months ended June 30, 2018 was €2 million, decreasing 79% over the same period of 2017.

4. Liquidity and capital resources

Our liquidity requirements consist mainly of debt servicing requirements, capital expenditures and working capital. Historically, our principal sources of liquidity have been our net cash generated from operating activities and borrowings under the former syndicated facility or existing senior secured notes.

As of June 30, 2018, our outstanding debt is a senior secured bond of €475 million signed in November 2017. The funds obtained and the cash at bank at that date have been mainly used to: pay down existing financial debt with financial entities and with the sole shareholder; finance the acquisition of the Liberbank Group's management business; extend a EUR 88 million loan to the sole shareholder; pay dividends to the sole shareholder; maintain a minimum cash at bank; and pay the expenses associated to the transaction.

As of June 30, 2018, cash and cash equivalents amounted to €27.8 million. We believe we have sufficient liquidity and capital resources to meet our current operating requirements. Our ability to generate cash depends on our future operating performance, which is in turn dependent, to some extent, on a variety of factors, many of which are beyond our control.

The Group has no off-balance-sheet transactions.

4.1 Cash Flows

The following table provides a summary of cash flow data:

	Six months ended June 30, (in € millions, other than ratios) *(unaudited)*	
	2018	2017(*)
Cash flows from operating activities	46.2	37.8
Cash flows from investing activities	(47.8)	(6.7)
Cash flows from financing activities	(12.6)	(39.9)

(*)Restated figures.

a. Cash Flows from Operating Activities

Cash flows from operating activities were €37.8 million and €46.2 million for the six months ended June 30, 2017 and 2018, respectively. This change is mainly the result of an increase in Adjusted EBITDA from EUR 56.1 million to EUR 64.9 million for the six-month period ending July 2017 and 2018, respectively, and due to the fact that in January 2017 the Parent deposited EUR 2,373 thousand due to the enforcement proceedings ruling arising from the income tax inspection for 2013 and 2014, with no corresponding payment in 2018.

b. Cash Flows from Investing Activities

Investing activities used €6.7 million of cash flows for the six months ended June 30, 2017 while €47.8 million were used in the same period of 2018. This change is explained by the payment performed by the Parent Company for the novation contract signed with Bankia in April 2018 by EUR 40.9 million. The total price agreed to be paid for the new 10 years contract amounted to EUR 107,687 thousand. An amount of EUR 40,854 thousand was paid on closing, and the remainder will be paid before year-end.

c. Cash Flows from Financing Activities

Financing activities used 39.9 million and €12.6 million of cash during the six months ended June 30, 2017 and 2018, respectively. This variance is due to the dividend paid to the shareholder in March 2017 by €21.5 million and the repayment on the former syndicated loan by EUR 10.6 million. The interest paid during the six-month period ended June 30, 2017 related to debts with Group Companies and the syndicate loan while the interest paid during the six months ended 30 June 2018 mainly related to the Senior Secured Notes issuance in November 2017.
