Cash and cash equivalents at end of period	108,768	93,627

(*) Unaudited financial statements.

(**) Restated figures.

Haya Real Estate, S.A.U. and Subsidiary (Haya Group)

1. Situation of the entity

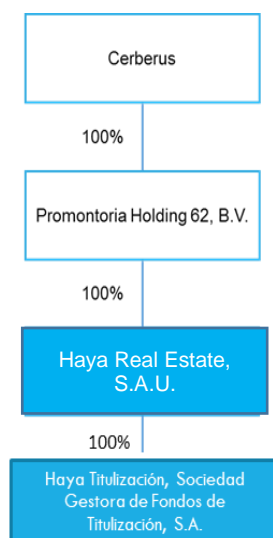

Haya Real Estate, S.A.U. (hereinafter, the Parent) was incorporated for an indefinite duration on 28 May 2013 as Cornalata Servicios y Gestión, S.L, and is duly registered in the Mercantile Registry of Madrid in Volume 1547, General, Book 31,153, Folio 10, Section 8, Sheet No. M-560,663, Entry 1 with VAT Registration No. (CIF) A-86744349.

The entity's name was changed on 1 August 2013 to Promontoria Plataforma, S.L.U., before being changed to its current name on 21 April 2014.

On 25 April 2018, the Sole Shareholder agreed to modify the Parent's bylaws so that it becomes a public limited company, changing its company name to Haya Real Estate, S.A. (Sole Shareholder Company). The transformation was effective on 7 May 2018.

Its registered office is at Calle Medina de Pomar 27, Madrid (Spain).

The corporate structure of Haya Real Estate, S.A.U. and subsidiary ("Haya" or the "Group") at September 30, 2021 is shown below:

On October 27th, 2021 the Parent Company, has signed an agreement with Beka Finance for the sale of 100% of shares of the Parent's subsidiary "Haya Titulización, Sociedad Gestora de Fondos de Titulización, S.A.U.". This transaction is subject to the regulatory approval by National Securities Market Commission (CNMV) and is expected to be finalized during the first quarter of 2022.

The Parent is a sole shareholder company wholly owned by Promontoria Holding 62, B.V. (the sole shareholder). Cerberus Capital Management L.P. ("Cerberus") advises funds that indirectly own 100% of the shares of the Parent, through the sole shareholder.

All Group's business activity is carried out in Spain, and mainly involves the following comprehensive services:

- **Debt management and recovery:** The Group actively manages and monitors its clients' portfolios of outstanding loans. For performing loans, the Group monitors the debtor's financial situation to anticipate a future default. It manages payments from debtors and performs necessary administrative functions. For NPLs, the Group assists in the analysis and implementation of a number of recovery strategies, including pre-legal recovery processes such as discounted pay-offs ("DPOs"), standstill payoffs, short sales, loan sales and portfolio sales. In addition, it manages legal recovery processes, such as foreclosure and insolvency processes and deeds in lieu ("DILs")
- **Real estate asset management:** The real estate asset management activities are centred on REO management activities such as asset onboarding activities (including reception of the assets and registration in IT systems), payment of taxes and debt cancellation. Once the asset is onboarded, the Group assists in analysing any development work required, for example, construction or obtaining relevant urban planning permits, with the help of urban planning lawyers, architects and contractors. The Group also performs detailed appraisal analyses, and manages necessary repairs and incidents, where required.
- **Real estate asset commercialization:** The Group manages a number of commercialization activities on behalf of its clients, including the rental and sale of REOs, through a broad network of real estate brokers, its clients' bank branches, its internal salesforce and its own online platform. Its activities incorporate the management of rentals, implementation of marketing campaigns, contacting clients and arranging site visits, as well as the sale of asset portfolios. The Group also assists in the formalization of private contracts and public deeds and performs ongoing monitoring and reporting activities.
- **Advisory and underwriting:** The Group has a cross-functional advisory team that assists in managing the clients' portfolio through a variety of activities. The Group provides asset valuation services through a combination of automatic and manual valuation, performs extensive market research and offers extensive data analytics and statistical modelling.
- **Value-added services:** The Group's value-added services complement its core servicing business and consist of portfolio advisory services, securitization management and property management. The Group also leverages its direct contact with end customers to offer related products, such as mortgages, insurance, utilities and refurbishment services. It has a team that manages and assists in the development of land and projects under construction.

The Group's revenues in 2021 and 2020 derive mainly from servicing contracts (SLAs or Service Level Agreements) setting down the terms and conditions for the services. These contracts have fee structures generally based on:

- **Volume-servicing fees:** the percentage fee contractually agreed with the clients for each asset transaction or recovery managed by the Group on their behalf, based on its nature (i.e. the recovery or sale of debt, the conversion of NPLs to REOs or the commercialization of a REO).
- **Asset management fees:** the percentage fee contractually agreed with the clients charged on the amount of assets under management (AuM) except for Sareb new contract where there is no asset management fee but rather a minimum fee to cover structure costs.

In addition, the Group derives its revenues from other business such as advisory, securitization and property management.

The main servicing contracts contributing to revenues in 2021 and 2020 are:

- **Caixabank Group (formerly "Bankia"):** The Group has been providing management services for real estate assets of the Caixabank Group under an SLA signed in April 2018, for a period of ten years, which replaced a previous SLA signed in October 2013. In addition to volume-servicing and management fees, the SLA also establishes a success fee that the Group earns if certain benchmarks are achieved for the assets managed during the year. In 2021, the merger between Bankia and Caixabank has been completed and the Group continues providing services to the merged entity under the aforementioned SLA. The SLA establishes certain service levels the Group has to achieve, which are measured regularly.

- **Cajamar Group:** The Group has been providing management services for the real estate and credit assets of the Cajamar Group since July 2014, under the SLA signed on 10 September 2014 for a period of ten years. The SLA establishes certain service levels the Group has to achieve, which are measured regularly.
- **SAREB:** The Group has been providing management services for the real estate and credit assets of the Sociedad de Gestión de Activos Procedentes de la Reestructuración Bancaria, S.A. (hereinafter, "SAREB") since January 2015, under an original SLA that had a term of five years. This agreement expired on 31 December 2019. On 30 October 2019, the Parent Company entered into a new servicing contract (SLA) with SAREB to service a portfolio of loans and Real Estate Owned assets with effective date from 1 January 2020 until June 30, 2022. The new SLA did not require any upfront payment from the Parent Company. Both SLAs establish certain service levels the Group has to achieve, which are measured regularly.
- **Unicaja Group:** The Group has been providing management services for the real estate assets of the Unicaja Group since August 2017, under an SLA signed on 8 August 2017 for a period of seven years. During the Q3'21 the merger between Liberbank and Unicaja has been completed and the Group continues providing services under the aforementioned SLA. The SLA establishes certain service levels the Group has to achieve, which are measured regularly.
- **BBVA:** in October 2018, the Group signed an agreement for the servicing of the BBVA Group's Spanish real estate assets, for a period of eight years and a potential renewal up to 2 additional years. The SLA establishes certain service levels the Group has to achieve, which are measured regularly.
- **Divarian:** in April 2019, the Parent Company signed a business purchase agreement with Divarian Propiedad, S.A. («Divarian»), the former internal servicing unit of BBVA acquired by Cerberus, for the integration of Divarian's servicing business in the Parent Company, including employees and other resources (mainly IT). The transaction was effective on 31 May 2019. At the same time, the Parent Company entered into a Service Level Agreement (SLA) with "Divarian Propiedad, S.A." and "Divarian Desarrollos Inmobiliarios, S.L." for the management of their REOs for a period of eight years. The Service Level Agreement did not require any upfront payment from the Parent Company, and the servicing business was acquired for 1 euro. The SLA establishes certain service levels the Group has to achieve, which are measured regularly.
- **Apple:** During 2019, the Group added one additional contract with Promontoria Manzana, S.A. and its affiliates, Global Licata, S.A. and Global Pantelaria, S.A. (owned through a JVCo 80% by Cerberus and 20% Banco Santander) for the management of real estate assets for a period of eight years.

The Group has expanded its activity since 2013, through acquisitions of asset management businesses from other financial institutions and of companies specialising in value-added services that complement its core business. The majority of the existing servicing contracts have required upfront payments in exchange for the exclusivity. The Parent is also the sole administrator of a few small portfolios of guaranteed real estate assets acquired by Cerberus.

COVID-19 risk and other risks

COVID-19 risk

The emerging spread of the global Coronavirus COVID-19 in the early months of 2020 has caused a general decrease in Spanish economic activity, including the Group's real estate and debt recovery activity. The Group's management continues to assess the situation according to the best information available and take proactive and reactive measures where possible. Highlighted below are the measures the Group has taken to manage the following risks:

- **Liquidity risk:** Despite of the COVID-19, the Group continues in light with the evolution of collections from its clients, and on February 2021 decided to fully repay the RCF (for an amount of EUR 3,900 thousand) (see Note 8). Furthermore, the Group does not have any short term financial obligations other than the interest due on its existing senior secured notes. The Group has ended the first nine months of 2021 with a positive working capital position of EUR 121,163 thousand.
- **Operational risk:** The Group's volume activity has seen a significant decrease since the beginning of the COVID crisis, with a sharp reduction in REO sales, loan recoveries and low REO conversions. Nonetheless, during 2021 the Group has experimented a gradual recovery of its activity compared with 2020 driven by an improvement in the economic activity. This recovery will depend to a great degree on

the evolution and the extension of the pandemic due to the new variations of the virus. In addition, part of the Group's revenue comes from a contracted asset management fee which is calculated as a % of assets under management, and the Group has a relatively high percentage of variable costs, which decrease proportionally with a decrease in volumes/sales transacted.

Taking into considerations the factors above, the Group's Management considers the going concern principle in the preparation of this report is still applicable.

Other business risk

The Spanish banking sector is going through a market consolidation process, with multiple mergers being contemplated or discussed during 2021. This consolidation could potentially impact the real estate servicing sector as well and could adversely affect our future revenues if the newly merged entities decide to renegotiate their existing servicing contracts. In this context, our clients Bankia and Liberbank have finalized their respective merger processes with Caixabank and Unicaja, being our clients the acquired party. Regarding to Bankia and Caixabank's merger, the Group continues providing services to the merged entity. In relation to Liberbank and Unicaja merger the future strategy of the new merged institution is still uncertain. If contracts under which Haya paid upfront (and corresponding intangible assets are recognized) are terminated early, Haya would be entitled to receive compensation as a result of the early termination.

Concentration in the financial sector or the sale of portfolios by our clients could also imply opportunities for the Group to compete for the bidding of future new servicing contracts for both financial institutions and institutional investors which would have a positive impact in the Group's future revenues. On the other hand, Sareb has already launched the renewal process of its main outstanding servicing contracts. The process outcome is uncertain and could affect the Group's position with this client. Likewise, the evolution of the Spanish real estate sector will affect the future activity of the Group as part of its revenues are linked to the commercialization of real estate assets and the recovery of loans with RE collateral.

2. Business performance and results

2.1 Key Performance Indicators

a. Alternative Performance Measures (APMs)

The key indicators used by the Group and its sector to describe its activities and performance are: Assets under Management (by total and by client), Transaction Volumes (by total and by type of transaction), Average Volume Servicing Fees and Average Asset Management Fees, EBITDA and Adjusted EBITDA, Net Debt, Leverage Ratio, Free Cashflow and Cash Conversion. The Group uses these measures when planning its strategy, preparing budgets, reporting to the sole shareholder and reviewing the Group's performance.

The Group's management considers that these measures are commonly used among its peers in the industry. It considers measures based on EBITDA to be useful as they eliminate potential differences in operating income between the periods and companies being compared, due mainly to factors such as amortisation and depreciation, historic costs, the age of the assets, capital structures and tax regimes.

Details of the definitions, calculation and reconciliation of these APMs with the Group's interim condensed consolidated financial statements are shown below:

a.1 Assets under Management (by total and by client)

The Group defines Assets under Management (AuMs) as the total contracted assets under management on which asset management fees are earned and which are comprised of NPLs (Non-Performing Loans) and REOs (Real Estate Owned Assets), generally at the gross book value reflected in the client's balance sheets or agreed upon reference price. The AuMs we manage can change for a specified period as a result of "inflows" (increases in AuMs resulting from new servicing contracts or additional AuMs from existing servicing contracts), "outflows" (decreases in AuMs resulting from the recovery or sale of NPLs or the commercialization of REOs) and NPLs conversions into REOs. The total amount of Assets under Management in a period forms the basis of our commissioning and is confirmed periodically with our clients.

This Alternative Performance Measure is used because it is understood to be a key measure to analyse and track our performance as it shows the base on which we earn our asset management fees and illustrate the volume of assets that we currently manage for our clients.

<i>At GBV unless otherwise indicated</i>	In € millions	
	September 30, 2021	December 31, 2020
Assets under Management (by client)		
<i>Caixabank</i>	2,918	2,909
<i>Cajamar</i>	4,281	4,677
<i>Sareb</i>	12,834	13,322
<i>Unicaja</i>	2,150	2,101
<i>BBVA</i>	1,715	1,924
<i>Divarian (1)</i>	3,837	4,288
<i>Apple(1)</i>	1,355	1,493
<i>Other Cerberus Portfolios(1)</i>	1,425	1,541
<i>Other clients(1)</i>	31	32
Assets under Management (total)	30,546	32,287

(1) Asset under Management indicated at "outstanding balance" for NPLs and "appraisal value" for REOs

As of 30 September 2021, the AuMs decreased by €1,741 million compared to December 2020 mainly due to the natural evolution of recoveries under existing contracts.

a.2 Transaction Volumes (by total and by type of transaction)

The Group defines Transaction Volumes as the volume transacted on AuMs on behalf of clients and on which volume fees are earned. Transaction Volumes comprise:

- Transaction Volumes derived from the recovery or sale of NPLs, measured at the amount of cash recovered on the loans for our clients;
- Transaction Volumes derived from the achievement of certain milestones in connection with the conversion of NPLs into REOs (REO conversion) through foreclosures or bankruptcy proceedings, measured at the established amounts for such milestones in the applicable servicing contract;
- Transaction volumes derived from the commercialization of REOs, measured at sale price for our clients.

The total amount of Transaction Volumes transacted in a period forms the basis of our commissioning and is confirmed periodically with our clients.

	Nine months ended September 30, (in € millions)	
	2021	2020
Transaction Volumes (by type of transaction)		
<i>NPL</i>	212.4	288.3
<i>REO Conversion</i>	335.8	464.8
<i>REO</i>	1,237.0	846.1
Transaction Volumes (total)	1,785.2	1,599.2

For the nine months ended September 30, 2021 compared to the nine months ended September 30, 2020, transaction volumes increased by €199 million (or +12.5%).

NPL volumes decrease by 26% (or €76 million) compared to the first nine months of 2020 mainly due to a portfolio of NPLs sold by Caixabank in Q3'20. REO Conversion volumes decreased by 28% (or €129 million) when compared to Q3 2020 mainly due to lower activity in Q1'21 and Q3'21. REO volumes increased by 46% (or €391 million) compared to the first nine months of 2020 mainly impacted by a gradual recovery of the economic activity in 2021.

a.3 Average Volume Servicing Fees, and Average Asset Management Fees

We generate revenues primarily from two types of fees under our Core Servicing Contracts: (i) volume servicing fees, which are calculated as a percentage of the recoveries volume for each NPA (i.e., the cash recovery or sale of debt, the activities performed to convert NPLs to REOs or the commercialization of a REO) that we achieve on behalf of our clients, and (ii) management fees, which are generally calculated as a function of AuMs in each contract in a given period. Such fees vary significantly from contract to contract and by type of asset recovery. Other revenues consist of success fees (linked to the achievement of performance objectives agreed with the clients) and revenues derived from other types of businesses (e.g., securitization, advisory services, rental management and land development advisory, among others).

The Group defines Average Volume Servicing Fees, as volume servicing fees as per the consolidated financial statements divided by Transaction Volumes for a specified period.

Likewise, the Group defines Average Asset Management Fees as asset management fees as per the consolidated financial statements divided by the average Assets under Management for a specified period (such average being calculated using the AuMs at the beginning and the end of the relevant period as confirmed periodically with our clients).

These averages are relevant for the Group as they give an overall average for the fees received in terms of the volume of client activity and total assets managed by the Group, irrespective of the terms and conditions of the contract with each client.

Because of their nature, including information reported by our clients, these APMs cannot be reconciled directly with the Group's interim condensed consolidated financial statements, but they provide a useful and relevant measure of the Group's performance and the overall trend in its revenues.

Average Volume Servicing Fees were calculated as follows for the nine months ended September 2021 and 2020:

	Nine months ended September 30, (in € millions, other than ratios) <i>(unaudited)</i>	
	2021	2020
Volume servicing fees	73.9	56.2
Volume of transactions in the period ⁽¹⁾	1,785.2	1,599.2
Average Volume Servicing Fees	4.14%	3.51%

⁽¹⁾ According to the definition of this APM provided before.

In relation to volume servicing fees as a % of volume there was an increase from 3.51% to 4.14% in Q3 2021 when compared to Q3 2020 due to a weight increase in REOs and the decrease in REOCO which have contractually lower % volume fee.

Average Asset Management Fees were calculated as follows for the last twelve months (LTM) ended 30 September 2021 and 2020:

	Last twelve months ended September 30, (in € millions) <i>(unaudited)</i>	
	2021	2020
Asset management fees	58.8	74.8
Average Assets under Management in the period ⁽¹⁾	31,762	37,704
Average Asset Management Fees	0.19%	0.20%

⁽¹⁾ Calculated using the AuMs at the beginning and the end of the relevant period as confirmed periodically with our clients.

Asset Management Fees as a % of assets under management remains stable in LTM 2021 when compared to LTM 2020.

a.4 EBITDA and Adjusted EBITDA

The Group defines EBITDA as the sum of net profit, corporate income tax, net financial expense, impairment and results on the sale of fixed assets, and depreciation and amortization.

The Group defines Adjusted EBITDA for the first nine months of 2021 as the sum of EBITDA and the non-recurring costs incurred in connection with M&A and the non-recurring costs for the labour restructuring process that the Parent Company carried out for the first nine months of 2020.

The Group uses EBITDA and adjusted EBITDA as objective and comparable performance measures for assessing its payment and cash flow-generation capacity. The Group considers that it will continue using Adjusted EBITDA as long as there are specific isolated transactions that represent income or expense for the Group without an associated cash flow and therefore need to be adjusted to ensure the usefulness and comparability of this indicator.

The reconciliation of this APM with the interim condensed consolidated statement of profit or loss for the nine-month period ended September 30, is as follows:

	Nine months ended September 30, (in € millions) (<i>unaudited</i>)	
	2021	2020(*)
Profit (loss) for the period	(6.3)	(19.1)
Income tax (benefit)/ expenses	(3.5)	(7.7)
Finance income	(4.1)	(3.9)
Finance expense	18.5	21.0
Depreciation and amortisation charge	38.9	39.3
EBITDA	43.5	29.6
Non-recurring costs in connection with M&A	0.7	0.0
Labour restructuring costs	-	6.4
Adjusted EBITDA	44.2	36.0

(*) Restated figures

For the nine months ended September 30, 2021, Adjusted EBITDA was €44.2 million and for the nine months ended September 30, 2020 Adjusted EBITDA was €36 million. This increase of €8.2 million is explained by the increase in revenues (from the increase in volumes previously explained) and the containment of costs.

The following table provides a summary of the last twelve months (LTM) EBITDA ended 30 September 2021 and 2020. EBITDA LTM presented below is not meant to provide an indicator of future earnings potential, as it covers periods with subdued economic activity affected by COVID-19 situation, changes in SAREB's contract and management actions to contain costs:

	LTM ended September 30, (in € millions) (<i>unaudited</i>)	
	2021	2020(*)
Profit (loss) for the period	(6.2)	(36.3)
Income tax (benefit)/ expenses	(3.4)	(13.1)
Finance income	(13.1)	(5.2)
Finance expense	25.5	27.9
Depreciation and amortisation charge	51.4	65.8
Impairment and gains or losses on disposals of non-current assets	5.5	23.9
EBITDA	59.7	63.0
Non-recurring costs in connection with M&A	0.7	1.8
Labour restructuring process	-	6.4
Adjusted EBITDA	60.4	71.2

(*) Restated figures

a.5 Net Debt

The Group defines Net Debt as Debts with credit institutions, bonds and other securities, including accrued interests, less cash and cash equivalents, as shown in our consolidated statement of financial position. This measure offers an objective view of the Group's net financial debt.

The reconciliation of this APM with the interim condensed consolidated financial statements for the nine-month period ended September 30, 2021 and year ended December 31, 2020 is as follows:

	In € millions	
	September 30, 2021 <i>(unaudited)</i>	December 31, 2020
Debts with credit institutions, bonds and other securities	427.2	426.8
Cash and cash equivalents	(108.8)	(54.0)
Net Debt	318.4	372.8

a.6 Leverage Ratio (Net Debt to EBITDA)

The Group defines the Leverage Ratio as Net Debt divided by Adjusted EBITDA of the last twelve months (LTM). This APM measures financial leverage and a company's ability to pay off its debt.

This APM was calculated as follows for the last twelve months (LTM) ended September 30, 2021 and for the year ended December 31, 2020:

	In € millions	
	September 30, 2021 <i>(unaudited)</i>	December 31, 2020
Net Debt	318.4	372.8
Adjusted EBITDA LTM	60.4	52.2
Leverage Ratio	5.3x	7.1x

The leverage ratio presented above on an LTM basis is not meant to provide an indicator of future leverage or expected leverage at year-end, as the existing COVID-19 situation might have a significant impact on future EBITDA performance, thus impacting the total leverage ratio of the Group.

a.7 Free Cashflow

The Group defines Free Cashflow of the last twelve months (LTM) as Adjusted EBITDA LTM minus Capital Expenditures LTM (excluding investments in contract intangible assets) and Change in Working Capital LTM. Payments for the right-of use assets are not included. The measures the cash available after operational needs have been met and after investment in fixed and intangible assets, mostly investments in computer software.

Because of its nature, this APM cannot be directly reconciled with the Group's interim condensed consolidated financial statements but provides a useful and relevant measure of the Group's performance and cash generating capacity.

This APM was calculated as follows for the last twelve months (LTM) ended 30 September 2021 and 2020:

	LTM ended September 30, (in € millions) (<i>unaudited</i>)	
	2021	2020
Adjusted EBITDA LTM	60.4	71.2
Capital Expenditures LTM (-)	(10.7)	(14.5)
Changes in working capital LTM (+/-)	36.0	(6.80)
Free Cash Flow LTM	85.7	50.0

During the first 9 months of 2021, significant efforts have been devoted to improve the Group's collection processes, which had led to an important reduction in accounts receivable and therefore a reduction in Working Capital.

a.8 Cash Conversion

The Group defines Cash Conversion LTM as Free Cashflow LTM divided by Adjusted EBITDA LTM. The Group considers this indicator as relevant given that it shows in which proportion the Adjusted EBITDA LTM is converted into cash in each period.

This APM arises from the direct calculation of two APMs previously reconciled with the Group's interim condensed consolidated financial statements for the nine-month period ended September 30, 2021. This APM was calculated as follows for the last twelve months (LTM) ended September 30, 2021 and 2020:

	LTM ended September 30, (in € millions, other than ratios) (<i>unaudited</i>)	
	2021	2020
Free Cash Flow LTM	85.7	50.0
Adjusted EBITDA LTM	60.4	71.2
Cash Conversion LTM	142%	70%

3. Income Statement

Key Income Statement Items

Set forth below is a brief description of the composition of the key line items of our consolidated statement of profit or loss:

Revenues

Our revenues are derived mainly from the volume servicing fees and management fees, which are linked to the transaction volume activity, as well as other revenues.

Other operating expenses

Other operating expenses consist primarily of channel costs, litigation costs for REO conversions, operational expenses and other operating expenses. Channel costs are commissions paid to real estate brokers or bank branches participating in the sale of REOs. Operational expenses are agency and consulting fees and the remaining of our operating expenses are comprised mainly of IT, marketing, rent and travel expenses.

Personnel costs

Personnel costs represent salaries, severance fees and related personnel expenses.

Amortization

Amortization includes the amortization of tangible and intangible fixed assets on a straight-line basis over the useful life of the assets.

Net finance costs

Net finance costs arise primarily from our debt obligations and related interest expenses.

Corporate income tax

Corporate income tax benefit (expense) is calculated as the sum of the current tax payable resulting from the application of the effective tax rate to the taxable income for the year, less any allowable tax deductions and tax credits and the change in assets and liabilities due to deferred taxes.

3.1 Revenues

The following table presents the breakdown of total revenues for the nine months ended September 30, 2021 and 2020:

	Nine months ended September 30, (in € millions) (<i>unaudited</i>)	
	2021	2020
<i>Volume servicing fees</i>	73.9	56.2
<i>Management fees</i>	44.5	49.5
<i>Other</i>	22.6	20.8
Total Revenues	141.1	126.5

For the nine months ended September 30, 2021, revenues were €141.1 million, a 11% increase (or €14.5 million) from revenues of €126.5 million for the nine months ended September 30, 2020. This increase of €14.5 million was primarily driven by an increase in total transaction volumes during the period, as previously explained. This increase has been partially offset by a decrease in Management Fee by €5 million (or 10%) as a result of Sareb Transition Plan fees earned in 2020 (with no corresponding impact in 2021) and the natural evolution of the AUMs.

3.2 Other operating expenses

Other operating expenses increase by €5.5 million, or 12%, during the first nine months ended September 30, 2021 compared to the nine months ended September 30, 2020. The increase in expenses was driven by: (i) higher intermediation costs of real estate agents in the sale of REOs impacted by higher REO volumes previously explained (ii) an increase in consultancy services and (ii) an increase in non-recurring costs associated to M&A. This increase has been partially offset by cost reductions across the cost structure.

3.3 Personnel costs

Personnel costs decrease by €4.9 million, or 10%, during the nine months ended September 30, 2021 compared to the nine months ended September 30, 2020. The decrease was primarily driven by the savings in personnel costs from the restructuring process carried out by the Parent Company in 2020. This decrease has been partially offset by the non-accrual of variable remuneration in 2020 as a result of COVID19.

3.4 Net finance costs

For the nine months ended September 30, 2021, net finance costs were €14.4 million vs €17.0 million incurred during the first nine months of 2020. The decrease in net finance costs is explained by the nominal amount reduction in the Senior Secure Notes of EUR 51.5 million due to the bond buy back transaction carried out by the Group in November 2020.

3.5 Net profit/loss

Total Adjusted EBITDA for the nine months ended September 30, 2021 amounted to €44.2 million, a 23% increase from Adjusted EBITDA for the nine months ended September 30, 2020. The increase in Adjusted EBITDA together with lower finance costs, have resulted a net loss for the nine months ended September 30, 2021 of -€6.3 million, (-€19.1 million in the same period of 2020).

4. Liquidity and capital resources

Our liquidity requirements consist mainly of debt servicing requirements, capital expenditures and working capital. Historically, our principal sources of liquidity have been our net cash generated from operating activities and borrowings under the existing syndicated credit facility or senior secured notes.

As of September 30, 2021, our outstanding debt relates to a Senior Secured Notes of €423.95 million signed in November 2017.

As of September 30, 2021, cash and cash equivalents amounted to €108.8 million. We believe we have sufficient liquidity and capital resources to meet our current operating requirements. Our ability to generate cash depends on our future operating performance, which is in turn dependent, to some extent, on a variety of factors, many of which are beyond our control, including COVID19 and its related impact on the Spanish real estate sector. The Group continues focused on managing the cash flow generation; and in evaluating the most efficient use of cash, the Group could potentially consider, among other alternatives, opportunistic bond buybacks of its traded senior secured notes depending on market conditions and business prospects.

The Group has no off-balance-sheet transactions.

4.1 Cash Flows

The following table provides a summary of cash flow data:

	Nine months ended September 30, (in € millions) (<i>unaudited</i>)	
	2021	2020
Cash flows from operating activities	81.7	53.0
Cash flows from investing activities	(9.0)	(11.8)
Cash flows from financing activities	(17.9)	(11.9)

a. Cash Flows from Operating Activities

Cash flows from operating activities were €81.7 million and €53.0 million for the nine months ended September 30, 2021 and 2020, respectively. This change is mainly explained by an increase in Adjusted EBITDA from €36.0 million to €44.2 million for the nine-month period ending September and the improvement in working capital.

b. Cash Flows from Investing Activities

Investing activities used €9.0 million of cash flows for the first nine months of 2021 and 11.8 million were used in the same period of 2020. Investment activities for the first nine months of 2021 and 2020 mainly related to the investments made on IT applications to manage the Group clients' real estate and credit asset.

c. Cash Flows from Financing Activities

Financing activities used/(generated) €17.9 million and €11.9 million of cash during the nine months ended September 30, 2021 and 2020, respectively. Financing activities in 2021 related to the interest paid in relation to the Senior Secured Notes issuance in November 2017 and the repayment of €3.9 million of the Group's RCF (in 2020 related to the interest paid and the disbursement of €3.9 million of the RCF).
